

BUILDING OUR ENDURING LEGACY

Annual Report 2023

Mission: Hanover College is a challenging and supportive community whose members take responsibility for lifelong inquiry, transformative learning and meaningful service.

Vision: As we enter our third century, Hanover College will be an institution known for its ambitious commitment to student success, academic innovation and community impact. With one foot steeped in tradition and the other stepping forward to the future, we will integrate a foundation in the liberal arts and sciences with the necessity of career readiness; the desire for human connection with the accelerated use of technology; and a transformative undergraduate experience with innovative graduate professional programs. Hanover College will be poised for its third century to be its best century.

On the Cover: The Class of 2027 Bicentennial Class poses for a group photo at the Point during August Experience.

Please contact Miranda Maxwell at 812-866-7034 or maxwellm@hanover.edu with questions about this publication, alumni and donor relations, and giving to Hanover College.

From the President

Dear alumni and friends,

In the summer of 2021, we launched our current strategic plan, “Hanover Stands Above”, with the aim of solidifying our place in the higher education landscape, elevating our national reputation, and determinedly pursuing our mission as we enter our third century.

This year’s annual report is a testament to the progress we have made within each of our six strategic priorities:

- Enhancing the Undergraduate Experience & Increasing Enrollment
- Building a Welcoming and Equitable Community
- Improving Alumni Outcomes and Engagement
- Increasing National Impact & Developing Innovative Graduate Programs
- Fostering Employee Wellbeing
- Improving Campus Facilities & Information Technology

More importantly, it is a testament to the faculty, coaches, and staff who serve our students every day; our leaders and advocates who guide and champion our work; and the donors and volunteers who ensure that Hanover and our students continue to stand above.

Together, we are building our shared legacy. As the following pages show, it is a very real, vibrant, and present legacy. New and renovated spaces are beginning to take their place on campus. Hundreds of students are on campus right now due to the scholarships and financial assistance made possible by our donors. Novel programs are launching which will set Hanover and our students apart as we engage with our ever-changing global community. There, perhaps, is where our legacy will truly shine – through the thousands of current and future alumni who will go out and be the compassionate, bright, and ready leaders that the world needs.

In April 2024, we will observe the 50th anniversary of the tornado that devastated campus. Such moments remind us that each generation of Hanoverians has confronted challenges, adapted, and ultimately, overcome. We honor the resilience shown by our predecessors; we live out our continued commitment to rigorous academics, holistic personal development, and respect for all; and we move forward prepared to meet the evolving needs of today and tomorrow’s students.

I am grateful to be on this journey with you, and I am excited to continue our shared work that celebrates our past and ensures our standing in the world for the next century and beyond.

With appreciation,

Lake Lambert, Ph.D.
President

From the Chair

Dear Campus Community,

As I reflect upon the first year as Chair of the Board of Trustees, I recognize that we must continue to move forward in order to overcome the challenges facing Hanover College, to ensure that we provide the highest quality educational experience for our students, and to foster a welcoming environment where our employees and campus community feel valued and empowered.

The challenges facing Hanover College and other liberal arts institutions have been well-documented across a variety of media. Often, these challenges are enumerated to include the following:

- A decline in the number of traditional age college students
- Growing competition from training entities and/or community colleges
- Societal concerns about the value of a college education

The Board of Trustees and I are aware that Hanover exists within an ever-changing educational landscape—one where the strategies of even five years ago require a willingness to respond in new and creative ways. And we know that the students of today expect and need different things than we did when we were in college. While we cannot predict the future, we can take the necessary steps to ensure that Hanover is ready for its Third Century.

Recognizing that the Bicentennial is upon us, we developed and launched a strategic plan—designed to give us flexibility to respond to new challenges and to provide a roadmap for ensuring that Hanover is as relevant in its Third Century as it is today. We heeded the advice of author and speaker, Joel A. Barker: “Vision without action is merely a dream. Action without vision just passes the time. Vision with action can change the world.”

The “Hanover Stands Above” Strategic Plan is based on an expansive vision of educational opportunities that include graduate programs; on an understanding that when the local community thrives, Hanover succeeds; on a commitment to engaging alumni and helping future alumni to be successful in their careers; on creating a campus community that welcomes and respects differences and where every person is valued; on embracing the history and beauty of our campus with the goal of protecting it for future generations; and on enhancing the undergraduate experience, from the types of programs offered to multiple housing options.

I am grateful to the many alumni and friends who support Hanover College. Your contributions ensure that Hanover continues to be the shining beacon on the hill—home to students whose aspirations hold no boundaries.

Thank you for all that you do for Hanover College.

A handwritten signature in cursive script that reads "Elaine E. Kops-Bedel".

Delivering a **ROBUST,** **HOLISTIC, TRANSFORMATIVE** **UNDERGRADUATE EXPERIENCE ...**

For nearly two hundred years, the undergraduate experience has been the heart and soul of Hanover College. Over the past several months, donor gifts and commitments have allowed us to provide scholarships and need-based financial assistance to hundreds of worthy students; sustain teams, programs, and departments; launch plans for new learning and living spaces for undergraduate students; and much more.

THE FUTURE OF BUSINESS

Hanover's business program has a rich history with thousands of accomplished graduates around the globe. Today, it serves over ninety declared majors, setting it apart as the most in-demand major on campus. A business degree from Hanover College sets graduates apart as leaders who can think critically, adapt with resilience, and communicate powerfully.

In 2023, Vance '72 and Mary Jo Cody '75 Patterson chose to invest in our undergraduate students and in our vision for the College's future with their generous commitment to the Hanover College Center for Business and Entrepreneurship. This new space, which will be located on the ground floor of Parker Auditorium, will offer faculty and students state-of-the-art teaching and learning spaces, while launching the renovation of this iconic building.

President Lake Lambert, Mary Jo Cody Patterson and Vance Patterson.

WINNING SPIRIT - ATHLETICS

Over half of the student population at Hanover College participates in Panther Athletics. In recent years, as students' desire to continue competing has met our coaches' commitment to providing a meaningful Division III experience, athletics has played a vital role in recruiting undergraduate students and enriching their campus experience.

Like the alumni who have competed before them, today's student-athletes learn how to prioritize, manage their time, overcome adversity, contribute as a team member, and form lifelong friendships. For these reasons, and many more, over 600 alumni and friends gave on our inaugural Athletics Day of Giving in February 2023.

As a result of the generosity of many donors, several endowed funds for athletics have also been created over the past several months, including the Hanover College Athletics Endowed Fund for Excellence, created by Rich Blaiklock '90 and Mindy Pflum Blaiklock '91, Wiley Kite '90, Rick Patberg '90, Ron Patberg '90, and Chris Stark '91. This fund and many others will ensure athletics remains a vital part of the undergraduate experience for generations of Panthers to come.

GREEK LIFE

As proud alumni members of Hanover College Greek Life, Wes '76 and Mary Burch Ratliff '78, recently chose to make a major contribution to the renovation and maintenance of Lambda Chi Alpha and Alpha Delta Pi. Like many of their fellow alumni, they value their fraternity and sorority memories and lessons and recognize that while the core values of leadership, service, and community remain, today's members seek a different residential experience which will require significant investment in each chapter house.

Fifty three percent of undergraduate students were affiliated at the end of the 2022-2023 Academic Term. With membership trending up over the past few recruitment cycles, the College is confident that continued investments in chapter houses, as well as the recently-implemented dining, maintenance, and staffing plans, will ensure this vital part of the undergraduate experience.

in a **WELCOMING COMMUNITY ...**

Communities are strengthened when each member feels safe and welcomed. Our campus community is no exception, and that is why we are intentional in creating a place where every member belongs so that every member can grow and thrive. In myriad ways, Hanover College and our donors are ensuring that each student, employee, and guest feels at home here.

In 2023, we were recognized as one of the top colleges for economic diversity by the New York Times, a ranking that reinforces Hanover's long-held reputation for being affordable and financially accessible to the best and brightest students, regardless of their family's household income.

Even the brightest among us can have barriers to navigate, and we are continually working to ensure those barriers are minimized. Work has already begun

to create more ADA accessible spaces, as many of our oldest and most cherished buildings require renovation and updates to ensure all members of the campus community and our guests can easily and safely access them. And, in the Gladish Learning Center, the Student Success team, including dozens of trained peer tutors, offer individualized support to all undergraduate students, whether it's one-time help with a difficult assignment, or comprehensive learning accommodations.

Across campus, there are countless opportunities for students to find their people. More established groups like Evil Petting Zoo, Love Out Loud, and the Geology Club continue to play an active role on campus, and they are joined by a host of others, including Black Student Union, Project Cocoon, the Beekeeping Club, the Hanover College Drumline ... and so many more.

PANTHER PETS

Perhaps some alumni will remember rare sightings of College Presidents' pets through the years. Today, as Hanover aims to become the most pet-friendly campus in the country, campus community members find delight in their daily encounters with the many furry friends who reside on campus.

What began as an initiative to welcome emotional-support animals to campus for undergraduate students has expanded to include any student who wishes to bring their pet companion to campus. Pets improve mental wellbeing, create opportunities for connection across campus, and offer unconditional love and presence.

With her gift of Dr. Bob's Dog Park, Vicki Jenkins '78 discovered a way to recognize and elevate the legacy of Dr. Robert Rosenthal and to create a space for community, where pets and their owners can de-stress, meet new friends, and enjoy our beautiful campus.

Sara Patterson
Baron Professor of Social
Justice Education

Linda Baron '73

BARON SOCIAL JUSTICE PROGRAM

Several years ago, Hanover College launched the Benjamin Templeton Program, an initiative aimed at recruiting and educating students with an interest in living out our mission of meaningful service through a focus on social justice issues. During its proud tenure, this program has resulted in dozens of meaningful, student-led initiatives, from tearing down a "Wall of Hate" comprised of hurtful words and educating the community on human trafficking, to providing resources for victims of domestic abuse and creating opportunities for students of color.

With a gift from Linda Pirtle '73 and Mark Baron, the College named its first Baron Professor of Social Justice this year and enrolled its first 12 students who will reside together at the Ogle Center, take courses toward a Social Justice Certificate, engage in meaningful service projects and graduate with the tools and information needed to ensure our shared community beyond Hanover College is a place to belong for all.

while serving as the foundation for launching in-demand **GRADUATE PROGRAMMING ...**

Hanover College is committed to meeting the needs of today's students and today's world. While undergraduate programs and students remain our priority, we are simultaneously designing and implementing graduate programs to meet the demands of the market and address the realities of an aging population.

At Commencement in May 2023, we graduated our first cohort of Doctor of Physical Therapy (DPT) students, an exciting milestone in our journey to grow our national reputation in graduate programming. As DPT continues to educate current students and recruit new classes, the Doctor of Occupational Therapy program is preparing to launch in 2024, offering new opportunities to enroll students from across the country and prepare them to meet the demands of the industry and our communities.

and delivering **EXCEPTIONAL** **ALUMNI OUTCOMES.**

When students walk across the stage and receive their diploma each year, they are beginning a lifelong alumni journey with us. As a campus, we are committed to ensuring our alumni are well-positioned to succeed in their careers and communities, connected to Hanover College and each other, and offered ample opportunities to support our mission and today's students. By all counts, our alumni demonstrate growing engagement and love for their alma mater each year.

While recruitment, retention, and graduation remain critical metrics of success, the College also reaches out to alumni each year to gather data and feedback on our longer-term impact on graduates. The report from the Class of 2022 demonstrates that we remain effective in preparing students for meaningful careers and graduate education. At the time of the report, 94 percent of graduates shared that they had secured employment, and 95 percent reported that they had successfully enrolled in postgraduate programs.

Outcomes like these are possible due to our alumni advocates, volunteers, and donors. Over the course of the past few years, the COACH Mentoring program

has grown to 200 alumni mentors, with several being matched with a student for a year-long commitment to sharing advice and offering support. For the first time this fall, every first-year student interacted with a COACH volunteer through an assignment that gave the students an opportunity to gain practical experience and information while highlighting the lifelong connection between Hanover College and its alumni.

Our students also benefit from the 100+ alumni who are engaged in our Alumni Leadership Council and alumni advisory committees. These volunteers greet first-year students during Move-In Day, select our annual Alumni Achievement Award honorees, share insight on campus issues and support the work of the Business Program, Greek Life, Athletics, and many other departments across campus.

And of course, perhaps no metric showcases alumni engagement better than our alumni participation rate. With steady growth over the past several years and a stunning 23% rate to end 2023, our alumni show their commitment to and belief in our mission with their annual gifts of every size.

Giving and Engagement

BY THE NUMBERS

Annual gifts, volunteer engagement, and advocacy for our mission from alumni and friends continue to be paramount to our students' success. Your support allows the College to attract the best and brightest students, recruit and retain exceptional faculty and staff, and create extraordinary experiences in and out of the classroom that contribute to holistic development and a vibrant campus environment.

PRINCIPLES

The students, faculty, staff and trustees of Hanover College seek to promote academic, personal, and moral growth within a safe, challenging and responsive community. Therefore, we will hold ourselves and the Hanover College Community to the highest standards of inclusivity, identifying and removing all systemic biases that impact the dignity of any person, supporting all, and ensuring that we are a truly empathetic and inclusive community where all persons belong and are valued. These values are articulated in the College's mission documents and embodied in the daily, ongoing work of the community.

To this end, each is committed to the following:

PURSUIT OF ACADEMIC EXCELLENCE

- I will seek the breadth and depth of knowledge appropriate to a liberal arts education, will seek to foster intellectual vitality, and will practice academic integrity.
- I will participate in the open and free exchange of ideas necessary for a meaningful education and a successful democracy.

PURSUIT OF PERSONAL EXCELLENCE

- I will pursue physical, moral, emotional, and spiritual wellbeing, with respect for the Christian and liberal arts traditions of the College.
- I will practice self-respect and self-discipline, and will seek to grow in maturity and independence.

RESPECT FOR ONE ANOTHER

- I will work to create a safe campus community, free from unjust coercion, harassment, and other threats to persons or property.
- I will practice honesty toward, tolerance of, and compassion for others, working to support the well-being of other members of the College community.

COMMUNITY RESPONSIBILITY

- I will participate in decision-making on rules and procedures, and will encourage others to do the same.
- I will be a good steward of the College, the environment, and the world community.

ACCOUNTABILITY

- I will know and adhere to the rules of the College and to state and federal laws, accepting accountability for my own actions and encouraging others to be accountable for theirs.
- I will practice justice, fairness and respect in my responses to violations of these commitments and of College rules by community members.

As members of the Hanover College community, we will make decisions together with those who will be most affected by them, we will seek the greatest amount of relevant input possible in our decision-making, and, to the extent possible, we will encourage decision-making on rules and procedures by those who will be most affected by them.

HANOVER'S NATIONAL RECOGNITION

Hanover College ranked #102 for National Liberal Arts Colleges, #37 Best Value Schools and #48 for Top Performers in Social Mobility out of the 2,500 four-year colleges and universities in the country.

Hanover College ranks among the top 386 colleges and universities in the nation, and is also highlighted as one of the Best in the Midwest. Plus, Hanover is consistently listed by Princeton Review as one of the most beautiful college campuses in the nation.

Hanover ranks among the top third of schools for Best Bang for your Buck in the Midwest and at #91 of 220 Best Liberal Arts Colleges.
